

FULL-SERVICE MOLD SHOP

For over 35 years Monroe Mold has helped blow molders operate more efficiently. We understand how the proper mold can help you during fast changeovers and high-speed production runs. Craftsmanship and design skills have built our business.

Monroe Mold employees are proud of their reputation to build top-quality extrusion blow molds. Our staff uses the latest technology to manufacture blow molds and cold-end tooling for polyolefin applications. With our "focus on the customer" attitude and years of plastics-industry experience, we can meet the quality and timing demands of your business.

Our customers represent key segments of the packaging industry as well as commercial and industrial markets. This includes applications such as dairy; food and beverages; medical/pharmaceuticals; personal care; household cleaners/chemicals; motor oil/lubricants; industrial chemicals; lawn and garden/ agricultural; and more.

We also serve industrial applications such as automotive, storage and shipping containers, toys, and more.

CAPABILITIES AND EQUIPMENT

Monroe Mold has a growing machine inventory to accommodate customers' needs and delivery schedules. Our staff consists of design engineers, CAD specialists, journeymen mold makers, plus a certified apprentice program. Many employees have more than 15-years experience so you are assured of a high-quality product and on-time delivery. Each new job is assigned a job leader and a team; they are responsible for the job from the beginning to the finished product.

Here's a partial list of our equipment -- we invite you to visit our facility to learn more:

- Machining Centers
- CNC Lathes
- EDM Machines
- 3D Manufacturing
- 3D Engineering

MOLD REPAIRS/RECONDITIONING

Hard use and 24/7 production create wear on any type of mold. Our experienced staff can evaluate damaged molds, identify the problems, and repair as needed to maintain your mold inventory. No matter how damaged or worn, Monroe Mold will give options to help keep production lines operating. We are committed to top-quality procedures to recondition your blow molds and tooling.

INDUSTRIES SERVED

Our specialty is manufacturing well-crafted, high-quality blow molds for volume production of polyethylene packaging products. Monroe Mold has a strong reputation, with a repeat-business rate of more than 90% from satisfied customers around the world. Our molds are used to produce products representing these markets:

- Food/Beverage/Dairy;
- Personal Care;
- Medical/Pharmaceutical;
- Household Cleaners/Chemicals;
- Industrial Chemicals;
- Lawn and Garden/Agriculture; and more

Industrial applications include automotive; storage and shipping containers; toys and more. Contact us for quotes on your design requirements: info@monroemold.com.

QUICK TURNAROUND ON RAPID MOLDS

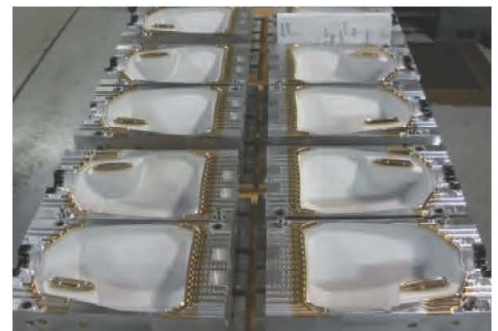

Monroe Mold specializes in rapid-prototype molds built to spec. We can typically provide a rapid mold in one week and we can run your samples to help you fine-tune design requirements at our facility. Efficiency is our goal and yours: Send us your 3D file to see a bottle or other container within seven days.

MANUFACTURING EXCELLENCE

Monroe Mold has continued to grow and evolve since 1977. We have added our sixth building addition to expand manufacturing and engineering space, plus more equipment. Explore our website for details on the "Top 10 Reasons to select Monroe Mold", www.monroemold.com.

Here's a brief summary of our company's strengths:

- Quality standards recognized with 90%+ repeat-business from **satisfied** customers
- **Efficient**, on-time delivery for mold repairs/reconditioning
- Expert blow pin and take-out tooling for extrusion blow molding machines
- Molds engineered for your high-speed processing needs
